

T10 YIELD FOX

WHITEPAPER 1.0.1
01/04/2022

Disclaimer

Information contained in this white paper is subject to completion or amendment. This white paper shall not constitute an offer to sell or the solicitation of any offer to buy tokens nor shall there be any sale of such tokens in any jurisdiction in which such offer, solicitation or sale would be unlawful. This white paper supersedes in its entirety any other prior marketing materials or other communications.

Certain information set forth in this white paper contains “Forward-looking information”, including “future oriented financial information” and “financial outlook”, under applicable securities laws (collectively referred to herein as forward looking statements). Except for statements of historical fact, information contained herein constitutes forward-looking statements and includes, but is not limited to, the: (i) projected financial performance of the token; (ii) completion of, and the use of proceeds from the potential sale of securities; (i) the expected development of the organization, projects and joint ventures; (iv) execution of the founder’s vision and growth strategy; (v) completion of the organization’s projects that are currently underway, in development or otherwise under consideration; and (vi) future liquidity, working capital, and capital requirements.

Forward-looking statements are provided to allow potential token holders the opportunity to understand core team's beliefs and opinions in respect of the future so that they may use such beliefs and opinions as one factor in evaluating the project. These statements are not guarantees of future performance and undue reliance should not be placed on them. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause actual performance and financial results in future periods to differ materially from any projections of future performance or result expressed or implied by such forward-looking statements. Although forward-looking statements contained in this white paper are based upon what core team of the organisation believe are reasonable assumptions, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements.

The individuals responsible for creating the token and platform(s) undertake no obligation to update forward-looking statements if circumstances or core teams estimates or opinions should change except as required by applicable securities laws. The reader is cautioned not to place undue reliance on forward-looking statements.

**T10
YIELD
FOX**

The image features a tablet centered in the frame, displaying the Yield Fox dashboard. The dashboard has a light gray header with the Yield Fox logo and a language selection bar (English) and a 'Connect Wallet' button. On the left is a vertical sidebar with navigation options: Dashboard (selected), Account, Calculator, NFT Collection, and Document. The main area is titled 'Dashboard' and contains several data cards:

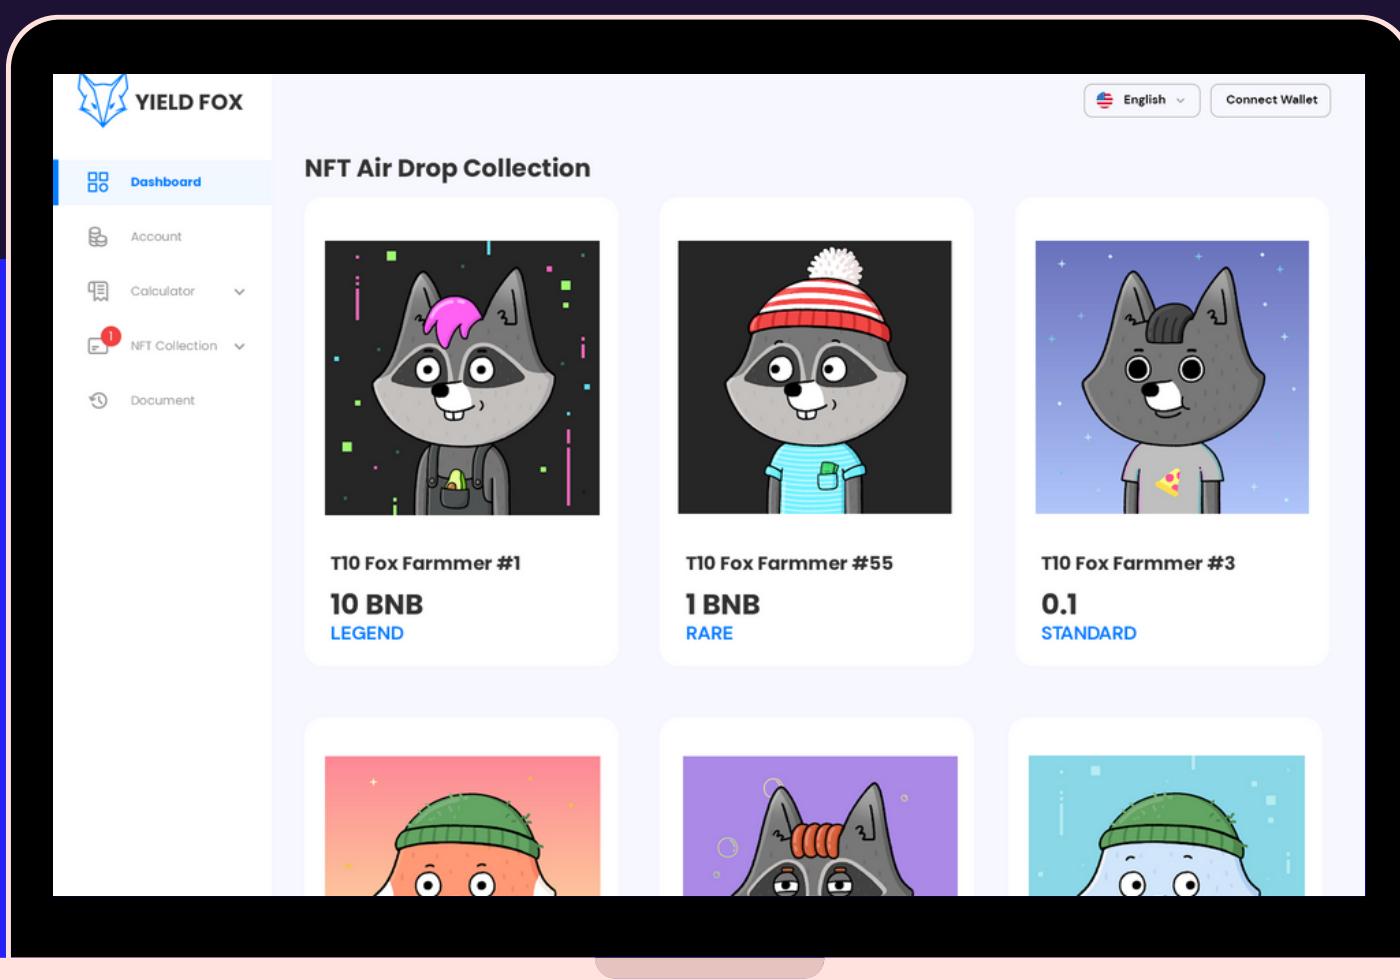

- \$T10 Prices: \$139.3656 (+12%)
- Market Cap: \$94,979,083 (+12%)
- Calculating Supply: 514,671.1433 (+12%)
- Pool Value: \$17,682,096
- T10 Insurance Fund Value: \$2,094,171
- Market Value of Treasury Asset: \$2,000,234
- # Value of Blackhole (\$T10): 100,746.59 \$T10
- # Value of Blackhole (\$): \$17,055,215
- % Blackhole Supply: 15.2147%

Below the dashboard, the text reads:

T10 Yield Fox: Auto Staking Auto Compound Rewards Every 10 Minutes Get Lifetime Access to Highest Fixed APY 1,284,615.72%

Auto Staking Auto Compound Rewards

Every 10 Minutes Get Lifetime Access to Highest Fixed APY
1,284,615.72%

T10 Yield Fox provides a decentralized financial asset which rewards its users with 0.018% increase in their assets, every 10 minutes. Yield Fox NFT Airdrop - 365 times a year for Yield Fox Holder will random give away, value 0.1-100 BNB. The rarity of NFTs is based on the growth in the number of Yield Fox Holder.

T10 Yield Fox

rebase

tokenomics

To support its price and rebase rewards, the \$T10 employs a complex set of factors. It includes the T10 Insurance Fund (TIF), which acts as an insurance fund to ensure the \$T10 Protocol's price stability and long-term viability by maintaining a consistent 0.018 percent rebase rate paid to all holders every 10 minutes.

The amount of the fees (6% for buys and 8% for sells) allows Clock 24 to provide \$C24 holders with the stable high yield of 12,846,15.72% annually.

Staking - Easy and Safe

T10 Yield Fox always stay in your wallet; it doesn't need to be put into the high risk staking contract. All you need to do is buy & hold it and automatically multiply rewards in your own wallet so there's no need to learn about the staking mechanism and also avoid paying an additional tax fee on staking operations.

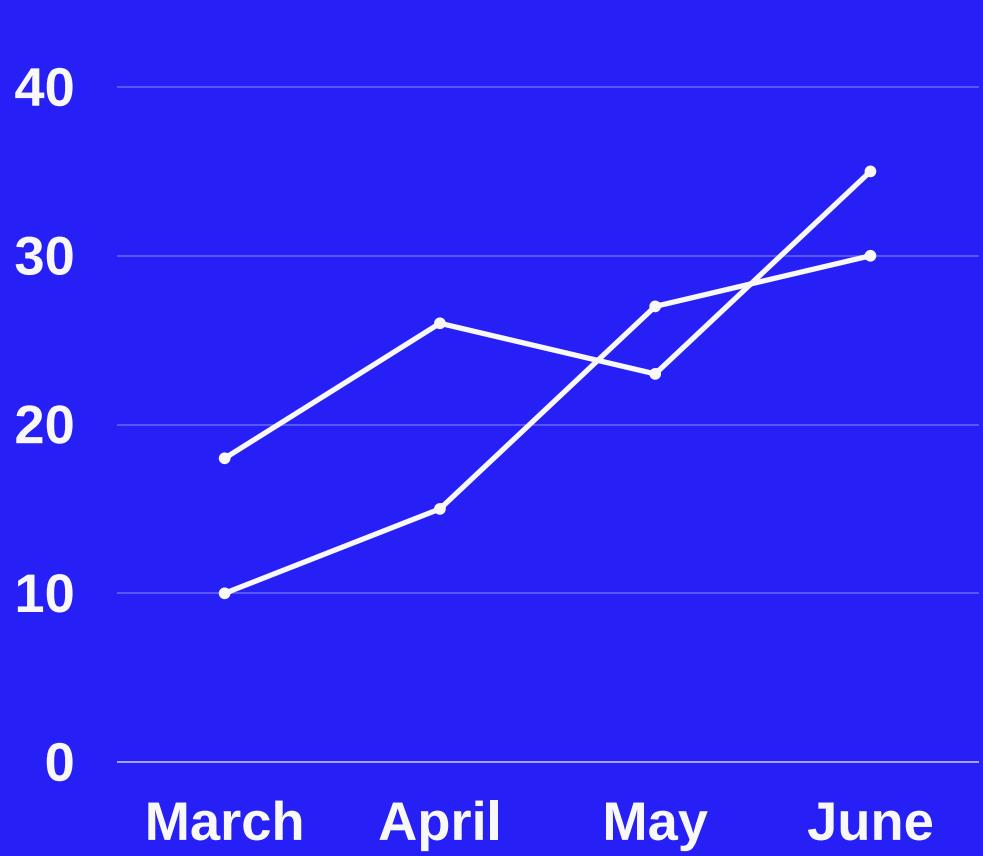

Automated safe staking strategy:

\$T10 pays 1,284,615.72% APY. The distribution of all rewards are followed by an automated process so no user miss any payment

The auto-compounding protocol of \$T10 pays users every 10 minutes in a day, making a total of 144 payments in a day.

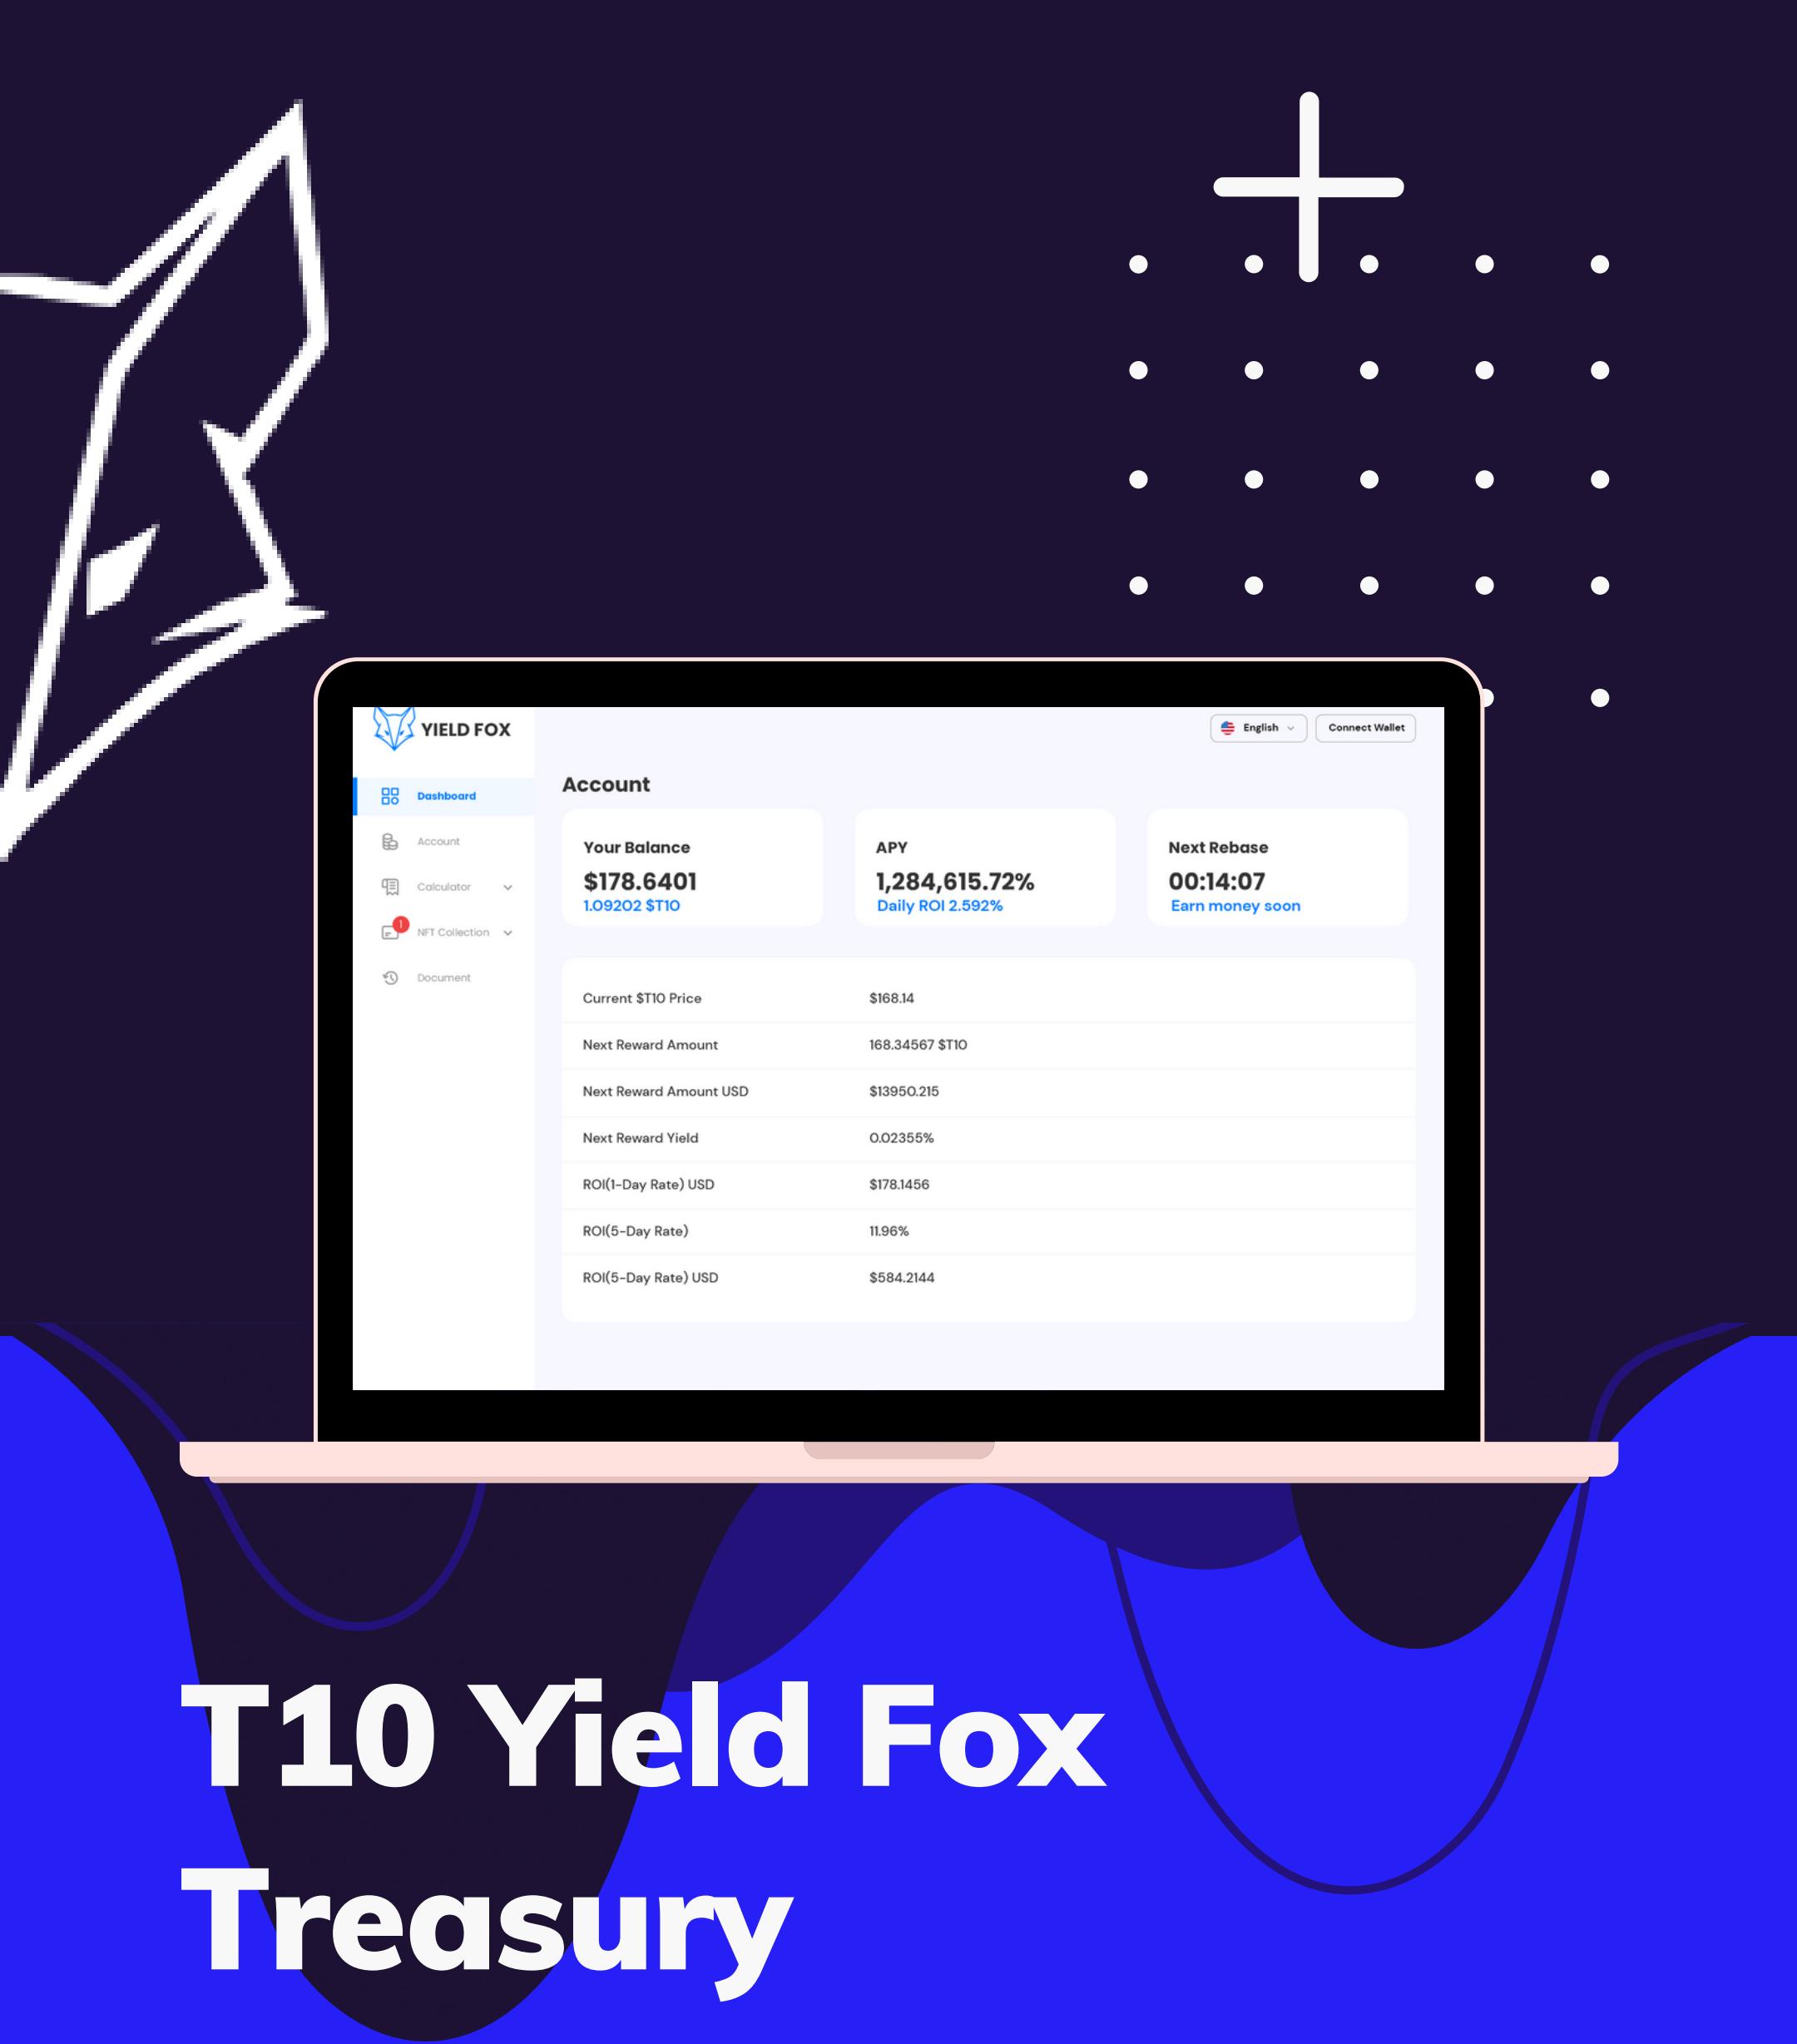

One of the most exciting aspects of the \$T10 Protocol is an automatic token burn system known as "Blackhole" which prevents circulating supply from becoming unmanageable. The burning Pit consumes 2.0 percent of all \$T10 Token market sales and is consumed in a single transaction.

T10 Yield Fox insurance fund

T10 Insurance Fund, abbreviated TIF, is a separate wallet in the T10 Yield Fox DAPP. TIF uses an algorithm that supports Rebase Rewards and is funded by some of the trading fees accumulated in the TIF wallet. In other words, the TIF parameter will Support the return stacking rewards distributed every 10 minutes at a rate of 0.018 percent to ensure that \$T10 token holders receive a high and constant interest rate.

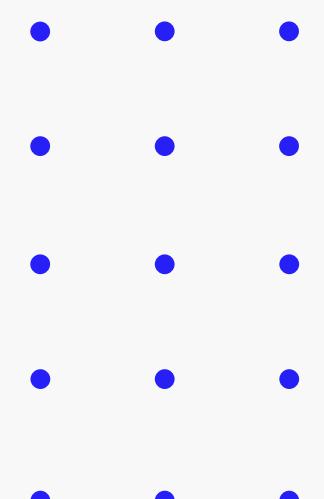

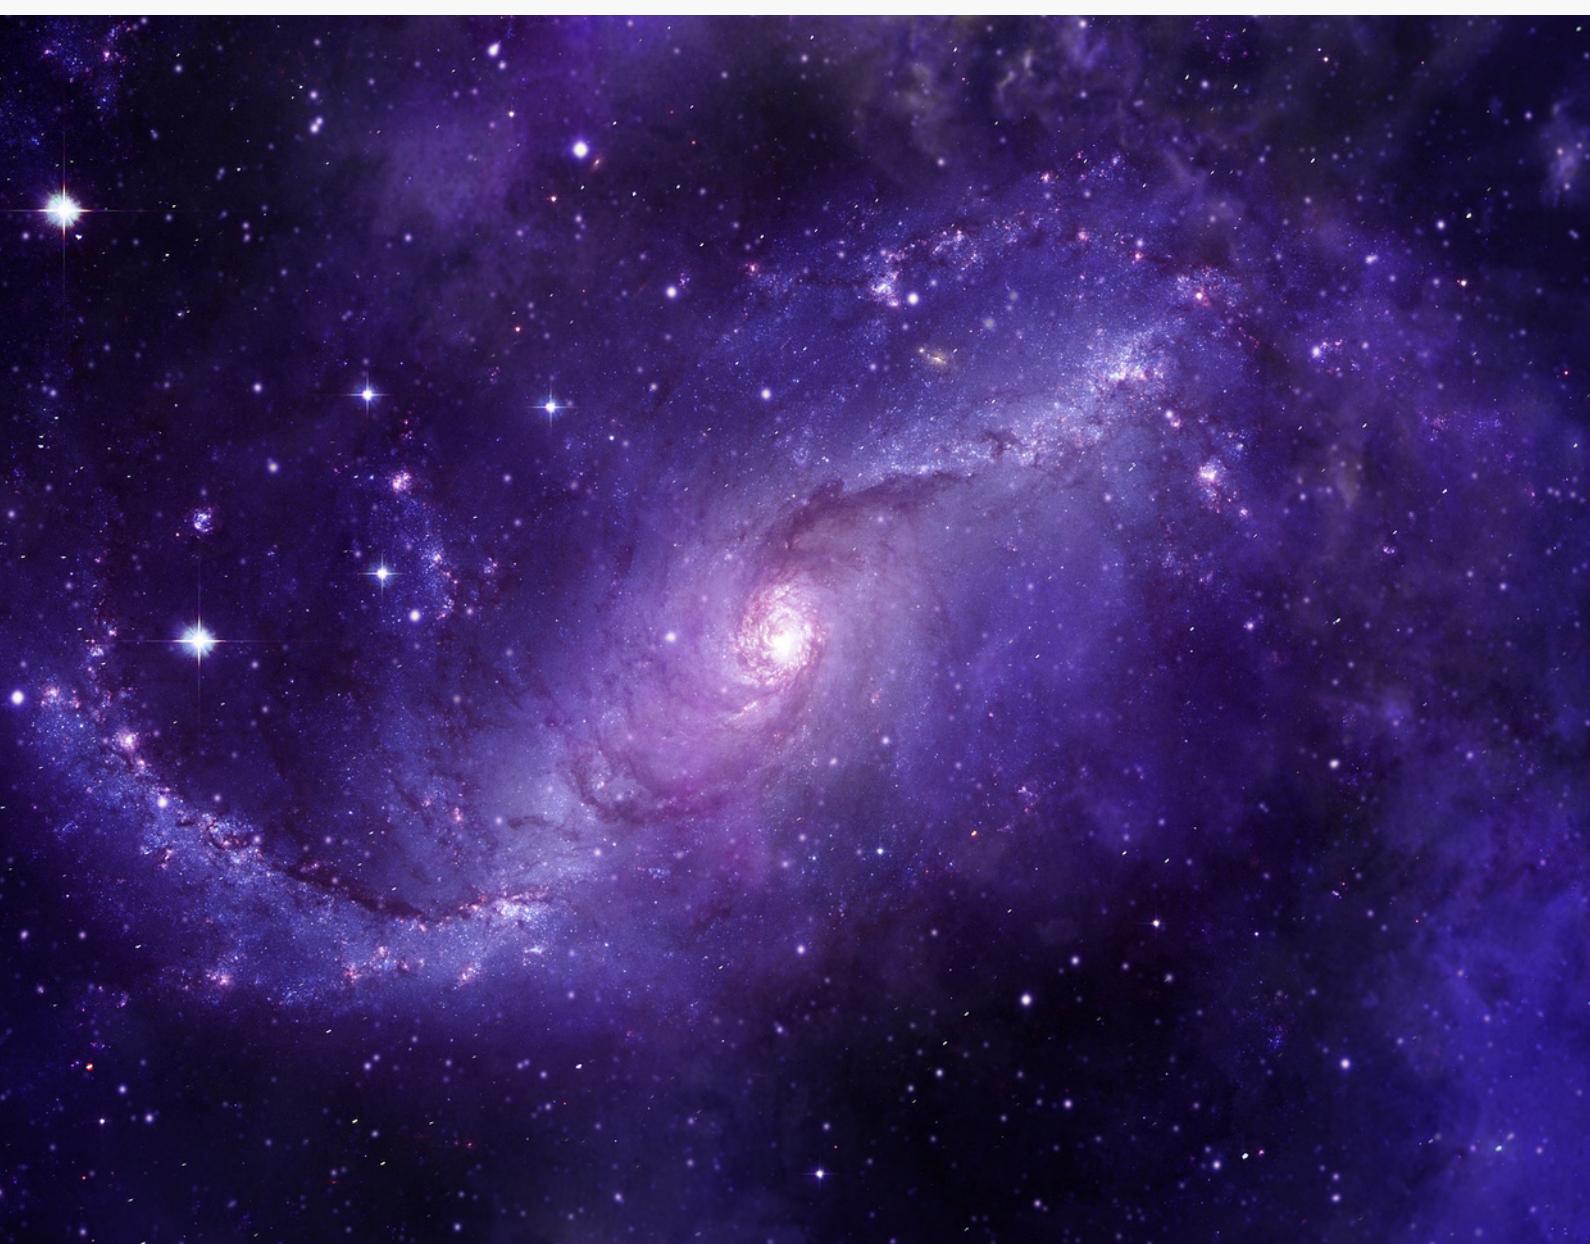

T10 Yield Fox Treasury

The Treasury plays a very important role in T10 Yield Fox Auto-Staking Protocol. It provides three extremely critical functions for the growth and sustainability.

The treasury may also be used to fund new T10 Yield Fox products, services, and projects that will expand and provide more value to the T10 community as well as providing funding for marketing.

T10 Yield Fox Blackhole

The burning in blackhole consumes 1.0 percent of all T10 Yield Fox traded. The more that is traded, the more that is added to the fire, causing the fire pit to grow in size, larger and larger through self-fulfilling Auto-Compounding, reducing the circulating supply and maintaining the T10 protocol stable.

Future Roadmap

Check Out Special Roadmap and How it Works!

1

March 2022

Early Stage

2

April 2022

DAPP and NFT Launch

3

May 2022

PR and Community

4

June 2022

To the moon

Mar 2022

- Brand and Socials Launch (Twitter, Telegram)
- Website Develop
- DAPP UI Design
- Smart contract development
- Contract audit by Consult
- Pre-Launch Marketing
- Brand Awareness Campaign

April 2022

- DAPP V1.0 Release
- Smart Contract on BSC Mainnet
- Press Release Yahoo Finance, Bromberg, Nasdaq
- T1 Contract Audit by Certik
